FOR AIRKEWLD CUSTOMERS · NO FACEBOOK NEEDED

Send Back Your Old Parts. Get Paid For Them.

You bought new parts from us. Your old ones are worth money. This guide shows you how to send them back **by email**. We pay the shipping, and we pay you by PayPal when they get to our shop.

WHAT YOU GET BACK

WHAT YOU BOUGHT	WHAT YOU SEND BACK	HOW IT SHIPS	CREDIT
Assembled front beam OGbuilt, ECObuilt, PRObuilt	The parts off your old beam: 4 control arms, 2 spindle assemblies, 1 steering box. Keep the bare beam.	5-gallon bucket, free UPS label	**$150**
Complete Drive-Train Package	Your old front beam (whole) and your old transaxle	The pallet your package came on, dropped at a freight terminal. We pay the freight.	**$400**
Control arm set ECObuilt, PRObuilt	Your 4 old control arms	One sturdy box, free UPS label	**$85**
Link pin spindle assemblies ECObuilt, PRObuilt	Both old link pin spindle assemblies	One sturdy box, free UPS label	**$60** /pair
Steering box, 1962+ ECObuilt, PRObuilt	Your old steering box	One sturdy box, free UPS label	**$20**

No core needed: transaxles bought on their own, and ball joint spindles. Bought a Split Bus steering box? Use the case and UPS label that came with it.

Full credit, no deadline. Worn out, bent or welded, send it anyway. You get full credit when everything on the list is there. There's no deadline, so install your new parts first and send the old ones when you're happy.

BEFORE YOU START, YOU NEED BOTH OF THESE

1. **A printer.** We email you a label or truck papers. UPS and the freight terminal won't take your core without it printed.
2. **A PayPal account.** Core credits are paid by PayPal only. No checks, cash, Venmo, Zelle or Cash App.

WHY YOU CAN TRUST THIS

• Airkewld has built VW parts in Goodyear, Arizona for 25 years. • You never pay us anything to send your core. • Every PayPal payment comes from Airkewld's business account. • We will never ask for your bank info, a password, or a code sent to your phone.

THE 5 STEPS

1 Install your new parts first.

Leave the old parts on the car until the new ones are in and you're happy with them.

2 Pack your core.

Bucket (beam parts): 5-gallon bucket with a lid. Lid on tight, tape all the way around it.
Box (arms, spindles, steering box): one sturdy box, parts wrapped so they can't bang through the side.
Pallet (Drive-Train Package): strap your old beam and transaxle down tight to the pallet your package came on.

Beam parts go inside the bucket

Lid on and taped shut

3 Email us with a photo of it packed.

Send it to **help@airkewld.com**. Copy this list into your email and fill it in:

Subject:	Core Return – Order # _____
Order number:	_____
Returning:	_____
Full name:	_____
Street address:	_____
City, State, ZIP:	_____
Phone:	_____
PayPal email:	_____
Attach:	a photo of your core packed and ready

4 Print the label and drop it off.

Bucket or box: we email you a free UPS label. Print it, tape it on, and drop it at any UPS location.
Pallet: we email the truck papers (BOL) and the address of the freight terminal closest to you. Print them, put them in a freezer bag taped to the load, and drop the pallet at that terminal. We pay the freight.

5 Get paid by PayPal.

When your core gets to our shop, we send your credit to your PayPal email and reply to let you know it's paid.

Questions? Reply on the same email thread. On Facebook? Comment **CORE** on any Airkewld post instead.
