SELLER GUIDE · PARTS ONLY

# You Keep the Beam. We Buy the Parts on It.

This guide shows you how to sell me the parts that are bolted to your VW front beam. It takes **7 easy steps**. You do not pay for anything. I send you a free UPS label and I pay you through PayPal.

## THE DEAL

**$150** **for the parts off one beam.** Set price, no haggling. You see it in Messenger right away.

The full set from **one** beam: **4 control arms, 2 spindle assemblies, 1 steering box.** We pay all the shipping.

**Nothing welded.** We can't buy parts that have been welded. If anything on the control arms, spindles, steering box has a weld on it, we have to pass. Link pin (1965 and older) and ball joint (1966 and newer) beams pay the same.

## BEFORE YOU SAY YES — YOU MUST HAVE BOTH OF THESE

**1 A PRINTER**

I email you a UPS shipping label. **You must print it at home** on regular paper. UPS will not take the bucket without it.

**2 A PAYPAL ACCOUNT**

**We only pay with PayPal.** No cash, checks, Venmo, Zelle, Cash App, or anything else.

No printer or no PayPal? Then this deal will not work. No hard feelings.

## WHY YOU CAN TRUST THIS

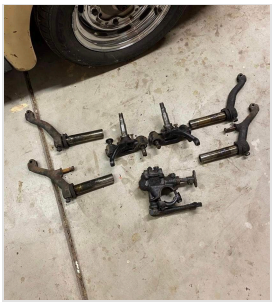

- **Who we are:** Airkewld is a Volkswagen parts company in Goodyear, Arizona. We have built VW parts for 25 years. Look us up: **airkewld.com**
- **You never pay us anything.** Shipping is free to you. We pay for it.
- **Your money comes from Airkewld.** Every PayPal payment is sent from our business account.
- **We will never ask for** your bank info, a password, or a code sent to your phone.

## WHAT I WANT (THE BOLTED-ON PARTS)

I only want the parts that bolt to the beam. **You keep the bare beam.** Your beam will look like one of these two kinds. Both pay the same.

**BALL JOINT BEAM PARTS (1966 and newer)**

**LINK PIN BEAM PARTS (1965 and older)**

**The 3 parts I need:** **1.** Control arms (4) **2.** Spindle assemblies (2) **3.** Steering box · **Nothing welded.**

## THE 7 STEPS

### 1 Get your offer in Messenger.

**Comment SELL** on any Airkewld post on Facebook or Instagram, or tap **"Get My Offer in Messenger"** on our website. A message from us pops up in **Messenger**.

Tap **"Parts in a bucket."** Answer two quick questions: do you have all the parts, and is nothing welded? You see your price right away: **$150**.

Tap **"Yes, let's do it"** to accept. Saying yes means you have a **printer** and a **PayPal account**.

### 2 Take the parts off the beam.

Unbolt the **control arms**, the **spindles**, and the **steering box**.

Keep the bare beam. I do not want it.

Not sure how? Watch this video. Scan the code with your phone camera:

**Video: How to take apart a VW beam**
https://youtu.be/dDiW3CVhjqE

## 3 Put the parts in a 5-gallon bucket.

Use a bucket **with a lid**. Put the lid on tight.

**Tape around the lid** so it cannot pop off. Wrap it all the way around.

The photos below show what it should look like. Messenger will ask you for a photo of yours.

**Parts go inside the bucket**

**Lid on and taped shut**

## 4 Send me your address and phone number.

Right after you say yes, **Messenger asks** for what I need to make your **free UPS shipping label**:

• Your full name • Street address • City, State, ZIP • Phone number

UPS needs the phone number in case they have a question about the pickup.

## 5 Get paid with PayPal (the only way I pay).

**PayPal is the only way I pay.** Messenger asks for the email address on your PayPal account. Then pick **one** way to get paid:

**OPTION A — Paid First**

I pay you **before** you ship. This is sent as **Goods & Services**, so PayPal takes a small fee out of your payment.

**OPTION B — No Fees**

You drop off the bucket first. Then send me a **photo of your UPS drop-off receipt**. I pay you right away as **Friends & Family**. **No fees.** You keep every dollar.

## 6 PRINT the label and drop off the bucket.

I will **email you the UPS label**.

**PRINT IT** on **regular paper** with your printer. **UPS will not take the bucket without a printed label.**

**Tape the label on top of the lid.** Cover the whole label with clear tape.

Take the bucket to any **UPS drop-off spot** (UPS Store, or a store with a UPS Access Point). Ask for a **receipt**. It costs you nothing.

**Find a UPS drop-off near you**
ups.com → UPS Access Point

## 7 Rate the sale.

Please leave Airkewld a recommendation on our Facebook page. It helps other sellers trust us. Thank you!

**Questions? Message me on Facebook Messenger.**
Please keep **everything** in Messenger: your address, PayPal email, photos, and questions. That way nothing gets lost or mixed up.
